Cindy Brenes

Frontend Developer

St. Paul, Minnesota | cinbrefe@gmail.com | linkedin.com/in/cindybrenes | Portfolio: cindybrenes.dev

PROFESSIONAL SUMMARY

Frontend developer with over a decade of experience building accessible, pixel-perfect HTML and CSS for enterprise brands including Target, Gap, Starbucks, Microsoft and eBay. Skilled in Sass, JavaScript, Kentico and AEM, and now building in React. Known for organized workflows, reliable delivery and close collaboration with design.

CORE SKILLS

Frontend Development: HTML5, CSS3, CSS Grid, Flexbox, Sass/SCSS, Responsive Design, Semantic HTML, Cross-Browser Compatibility, Design-to-Code Implementation, ARIA & Accessibility (WCAG 2.1), Performance Optimization

React & JavaScript: React, React Hooks, React Router, JavaScript, Tailwind CSS

CMS & Platforms: Kentico CMS, AEM (Adobe Experience Manager), WordPress, Classic ASP, Email Campaign Development

Build & Version Control: Git/GitHub, Bitbucket, Vite, Grunt, Gulp, npm, ESLint, Prettier, Stylelint

Project Management & Collaboration: Jira, Azure DevOps, Asana, Confluence, QA Coordination, Testing Workflows

Design & Creative Tools: Adobe Creative Suite (Photoshop, Illustrator), Figma

PROFESSIONAL EXPERIENCE

Independent Study & Professional Development

Self-Directed Feb 2025 - Present

- Took focused time to modernize frontend skills, combining structured React coursework with portfolio projects built from components and hooks.
- Completed Meta's React Specialization and finished 7 of 9 courses in Meta's Front-End Developer Professional Certificate (Coursera).

Frontend Developer

DCG ONE (Contract) Apr 2018 - Jan 2025

- Part-time contract work alongside a full-time role at POP (2018 - 2021), becoming the primary role after leaving POP in Jul 2021.
- Built email templates for American Express following strict brand guidelines, ensuring pixel-perfect rendering across all major email clients.
- Grew from email into landing pages, app prototypes and more than 25 card member microsites, built and maintained in ASP with clean HTML, CSS and vanilla JavaScript and a consistent focus on accessibility.
- Applied accessibility best practices (WCAG, ARIA, semantic HTML) across all projects as a standard part of development, regardless of whether clients explicitly required it.
- Delivered frontend work for additional clients including Amex Travel, Seabourn and Vivacity Care Clinics.

Senior Frontend Developer

POP Jul 2017 - Jul 2021

- Built and maintained websites, microsites, landing pages, email campaigns and banners for Gap Inc., Target (Corporate Redesign), Costco Travel, Microsoft, eBay, Nintendo and Starbucks.
- Used Kentico CMS and Grunt/Gulp build workflows for larger site builds, with file minification and image optimization to improve page performance.
- Built a themable component system for the Gap Inc. corporate site, using shared Sass variables to restyle one set of components for Gap, Old Navy, Banana Republic and Athleta.
- Collaborated directly with F5 Networks on the F5 Labs site redesign using AEM and Agile methodology, working across a distributed team in the US, Poland and Costa Rica.

- Wrote accessibility-first markup for the Target corporate redesign to meet Target's strict standards, with every page going through accessibility QA.

Frontend Developer
POP Jan 2012 - Jul 2017

- Joined POP as a Web Developer focused on HTML email development, progressing to full frontend production across major enterprise brands, including The Home Depot.
- Worked as part of the Target Roundel team for 3 years, building production landing pages and banners using HTML and CSS.
- Promoted to Senior Frontend Developer in Jul 2017 in recognition of technical execution, reliability and attention to detail.

PROJECTS

- **React Search App:** (2026) Movie search and discovery app built with React 19, the TMDB API and mobile-first Sass/SCSS, with search, filters for genre, rating and year range, sorting, a details modal, skeleton loading states, windowed pagination and accessible markup throughout. github.com/cinbrefe/react-search-app
- **React Project Manager:** (2026) Project management app built with React 19, custom hooks and Tailwind CSS. Users create projects with a title, description and due date, switch between them from a sidebar and manage each project's task list in a clean, responsive UI. github.com/cinbrefe/react-project-manager
- **Portfolio (cindybrenes.dev):** (2026) Personal site built with React, React Router and Sass, with a token-based dark theme tuned for WCAG contrast, deployed on Vercel. github.com/cinbrefe/personal-portfolio

EDUCATION

Universidad Americana (CR)

- Bachelor's Degree, Graphic Design (2006 - 2011).

Universidad Latina de Costa Rica

- Bachelor's Degree, Advertising (2002 - 2005).
