

Cindy Brenes

Frontend Developer / UI Developer

St. Paul, Minnesota | 612-380-8828 | cinbrefe@gmail.com | linkedin.com/in/cindybrenes | Portfolio: cindybrenes.dev

PROFESSIONAL SUMMARY

Frontend Developer / UI Developer specializing in clean, pixel-perfect CSS and HTML with functional JavaScript skills for building complex, enterprise-scale websites while actively expanding into React/JSX. 15+ years building production systems for major brands including Target, Gap, Starbucks, Microsoft, and eBay. Deep visual design expertise with meticulous attention to browser compatibility and accessibility best practices. Known for organized workflows and reliable delivery.

CORE SKILLS

Frontend Development: HTML5, CSS3, CSS Grid, Flexbox, SASS/SCSS, Responsive Design, Semantic HTML, Cross-Browser Compatibility, Pixel-Perfect Design, ARIA Labels & Accessibility Attributes, WCAG 2.1 Compliance, Performance Optimization, Frontend Troubleshooting

CMS & Platforms: Kentico CMS, AEM (Adobe Experience Manager), WordPress, Email Campaign Development

Build & Version Control: Git/GitHub, Bitbucket, Grunt, Gulp, npm, ESLint, Prettier, Stylelint

Project Management & Collaboration: Jira, Azure DevOps, Asana, Confluence, QA Coordination, Testing Workflows

Emerging Skills: React (see Projects: React Search App, React Project Manager)

Design & Creative Tools: Adobe Creative Suite (Photoshop, Illustrator), Figma, Graphic Design Fundamentals

PROFESSIONAL EXPERIENCE

Frontend Developer

DCG ONE (Contract) Apr 2018 - Jan 2025

- Built email templates for American Express following strict brand guidelines, ensuring pixel-perfect rendering across all major email clients.
- Expanded project scope from email to landing pages, app prototypes, and microsite maintenance, delivering clean HTML, CSS, and Vanilla JavaScript solutions with a consistent focus on best practices and accessibility standards.
- Applied accessibility best practices (WCAG, ARIA, semantic HTML) across all projects as a standard part of development, regardless of whether clients explicitly required it.
- Delivered frontend work for additional clients including AMEX Travel, Seabourn, and Vivacity Care Clinics, maintaining consistent code quality across diverse brand standards.

Frontend Developer

POP Jan 2012 - Jul 2017

- Joined POP as a Web Developer focused on HTML email development, progressing to full frontend production across major enterprise brands, including Home Depot.
- Worked as part of the Target Roundel team for 3 years, building production landing pages and banners using HTML and CSS.
- Promoted to Senior Frontend Developer in Jul 2017 in recognition of technical execution, reliability, and attention to detail.

Senior Frontend Developer

POP Jul 2017 - Jul 2021

- Built and maintained websites, microsites, landing pages, email campaigns, and banners for Gap Corporate, Target (Corporate Redesign), Costco Travel, Microsoft, eBay, Nintendo, and Starbucks, using Kentico CMS and Grunt/Gulp-based build workflows for larger site builds, including file minification and image optimization to improve page performance.

- Collaborated directly with F5 Networks on the F5 Labs site redesign using AEM and Agile methodology, working across a distributed team in the USA, Poland, and Costa Rica.
- Incorporated WCAG and ARIA accessibility standards into all projects, with particular attention to high-compliance enterprise clients like Target and Microsoft.

Independent Study & Professional Development

Self-Directed Feb 2025 - Present

- Pursuing structured upskilling in modern JavaScript frameworks, completing Meta's React Basics and Advanced React certifications via Coursera and building portfolio projects to apply component-based patterns to real-world layouts.
- Completed Anthropic's Claude Code in Action certification via Coursera, applying AI-assisted development workflows to personal projects.

PROJECTS

- **React Search App:** (2026) Search and discovery app built with React, JavaScript, and Sass/SCSS, powered by the TMDB API. github.com/cinbrefe/react-search-app
- **React Project Manager:** (2026) Project management app to create, organize, and track projects with per-project task lists, built with React 19, custom hooks, and Tailwind CSS. github.com/cinbrefe/react-project-manager

EDUCATION

Universidad Americana (CR)

- Bachelor's Degree, Graphic Design (2006 - 2011).

Universidad Latina de Costa Rica

- Bachelor's Degree, Advertising (2002 - 2005).

CERTIFICATIONS

- React Basics - Meta via Coursera (Jun 2025)
- Advanced React - Meta via Coursera (Sep 2025)
- Claude Code in Action - Anthropic via Coursera (Apr 2026)
